Disclaimer :

- Limestone Antique Black is rich in material salts which over time can result in efflorescence which diminishes the color of the natural stone.
- Autumn Mist is not recommended for installation around or near pools, spas, and hot tubs.
- Grey Mist is rich in iron content, which over time has the potential to discolor because of oxidation (or rusting).

"A customer is the most important visitor on our premises. He is not dependent on us. We are dependent on him. He is not an interruption in our work. He is the purpose of it. He is not an outsider in our business. He is a part of it. We are not doing him a favor by serving him. He is doing us a favor by giving us the opportunity to do so."
